Greenfield July 2d 1858

Dear Brother

We duely received yours of the 29t inclosing draft for $350-00, We are sorry about you getting out of flour so often the day before you wrote. Father wrote Freeland not to ship any more from Hamilton, the Agent of the Buffalo & L.H.R.R was up again. anxious for us to send flour by way of Buffalo he says it will go as quick forward as by Lake. So we thought it best to send that way as we can send when wanted We shipped 100 bls at Paris to day it will be at Buffalo to morrow and they will ship without delay. They agree to deliver it in Utica for 52 cents pr Barrel without further expence So you will mind not pay any more such is our bargain with the R.R. Co. You must have

patience this time although very annoying we will send the car load of work on future regular which will be 80 ℔s - so when you you get what is sent now it will come regular

Blain & Galt has lost the Dixon Mills it is said to be McNaughton who has got it. if so it will be a good thing for us then will not be the competition for wheat and it will be better for your market

the next draft sent to Freeland write as soon as you receive the flour Freeland holds at 4.75 now what he has got

Yours affect

Walter D Goldie

July 3d Take this out of the office to say that we have just received yours of 1st wanting us to send you some flour by way

A. S. Bridge We have
accordingly given orders to Ship
about Thirty Barrels ~~it~~ will be
sent today or Monday via A. S. Bridge
You will have to keep up the
price as well as you can
A. S. Golucia
